Email: guptashivam63095@gmail.com

Mobile: +91-9653093045

SKILLS

Languages: C++, JavaScript, C, Python, Java, PHP

Frameworks: React.js, Node.js, Spring Boot, Laravel, HTML, CSS, REST APIs, JWT Authentication

Tools/Platforms: PostgreSQL, MySQL, Redis, Docker, Git, GitHub, Maven, Google Colab, pgAdmin

Core Competencies: Full Stack Development, Backend Development, REST API Development, Authentication & Authorization, Database Management, Docker & Deployment

Soft Skills: Time Management, Leadership, Adaptability, Problem Solving, Team Collaboration, Interpersonal Skills

PROJECTS

UMS – University Management System [GitHub](#)

November 2025 – December 2025

- Built a unified system integrating student, course, faculty, and departmental data
- Developed a secure backend to manage large datasets and streamline workflows
- Designed an intuitive interface improving usability and operational efficiency
- Optimised processes to ensure data accuracy and performance

Tech: React.js, Java, Spring Boot, Spring Security, PostgreSQL, Redis, Docker, JWT, REST APIs

Music Streaming Application [GitHub](#)

July 2025 – August 2025

- Developed a music streaming web application with real-time audio playback and dynamic content loading
- Integrated REST APIs and AI-powered features using the Anthropic API for intelligent song metadata retrieval and streaming management
- Implemented AI-based recommendation system using machine learning models for personalised music suggestions
- Built responsive UI ensuring seamless navigation across devices

Tech: JavaScript, Python, HTML, CSS, REST APIs, AI/ML Integration

Journey Junction – Travel and Tourism Website [GitHub](#)

April 2025 – May 2025

- Designed a structured travel and tourism website with smooth navigation flow
- Implemented backend functionality for dynamic content management
- Ensured responsive and visually consistent user interface across devices
- Improved accessibility and usability through optimized layout design

Tech: HTML, CSS, JavaScript, PHP, MySQL

TRAINING

Data Structure and Algorithms using C++ (LeetCode) certificate

July 2025

LPU Skill Development Certificate

- Covered fundamental and advanced data structures including Arrays, Linked Lists, Stacks, Queues, Trees, and Graphs
- Studied key algorithmic techniques including Sorting, Searching, Recursion, Dynamic Programming, and Greedy Algorithms
- Practised 50+ LeetCode problems improving optimisation and analytical thinking
- Implemented core data structures in C++ strengthening programming proficiency

CERTIFICATES

Computer Communications, University of Colorado [certificate](#)

November 2025

Master Generative AI and Generative AI Tools (ChatGPT and more), Infosys Springboard [certificate](#)

August 2025

Introduction To Internet Of Things, NPTEL [certificate](#)

April 2025

Data Structures and Algorithm, Neocolab [certificate](#)

August 2024

ACHIEVEMENTS

Google Developer Group Roadshow

April 2025

- Won quiz competition during the event

HackerRank Novice Badge

December 2024

- Earned Silver Badge by securing 100 points

EDUCATION

Lovely Professional University, Phagwara, Punjab

Since August 2023

Bachelor of Technology - Computer Science and Engineering, CGPA: 68

Ryan International School, Shahjahanpur, Uttar Pradesh

April 2021 – March 2023

Intermediate; Percentage: 65

Ryan International School, Shahjahanpur, Uttar Pradesh

April 2020 – March 2021

Matriculation; Percentage: 91
